Manager's Corner

Till Next Season...

Now that the season is winding down, many of our residents will be making plans to head back up north for the summer. Remember that if you have any planters or flower beds around your place, make arrangements to have them taken care of while you are gone. Also make sure that any lawn furniture, potted plants, or anything else that might become a projectile during our summer storms is safely put away. Clear off your patios; put everything inside or under your unit behind the skirting. If you have an outside hose, please disconnect it and store it inside also. During high winds, hoses become like whips. If you have an outside shed, please make sure it is tied down.

Everyone please have a safe trip home and a good summer, and we'll see you next season.
